

5 Fabulous Hairstyles for Long, Fine Hair

Just because you have fine hair, it doesn't mean you can't wear it long. What *is* important though is that you choose the right style. One that is going to give the appearance of bounce and volume and not one that is going to look limp and straggly. So what *are* the best styles for your long, fine hair?

Curls and waves – fine hair's best friends

Curls and waves are one of the best hairstyles for long, fine hair. They are a brilliant way to give volume if your hair lacking bounce.

Kate Hudson's tousled, beachy waves bulk out her fine hair and give a thicker look.

Squirt some volumising mousse to the roots and blow dry with a round barrel brush to add instant texture and volume.

Kirsten Dunst's wide, loose curls are a great way to give the illusion of thickness.

Let's be blunt...

If you have fine hair it's important to keep the ends in good condition. Straggly ends look wispy and makes hair look finer than it actually is. Keeping the ends blunt makes fine hair look thicker and healthier.

Lovely layers...

Many hairstyles for long, fine hair are based on layers. Ones that end around the jaw line are always gorgeous as they act as a natural frame for the face.

Mila Kunis makes the most of her fine hair with gorgeous face framing layers.

Fabulous fringes...

If you want to add a fringe to your fine hairstyle, go for long and wispy. Leave blunt bangs to those with thick hair.

Make colour work for you...

By adding highlights and lowlights to your fine hair you can make it appear more three dimensional and give the illusion of thickness.

Here, Jessica Beil uses all the tricks in the book. Multi-dimensional colour, volumising waves and parting hair on one side to double up the volume!
